

October 2011

Dear Families,

This letter is to remind you that flu season will soon be upon us again!

If your child is not feeling well please:

- keep your child at home until the symptoms are gone
- if you have an appoint with us, cancel by phoning (250) 833-0164
- re-book the appointment, or come to the next group, when your child is feeling better

Why?

- your child will not get anything out of session/group/home visit if he or she is not feeling well
- our staff see other children during the day and could spread germs to others
- some of the children we work with have conditions that weaken their immune systems, and, for them, minor illnesses can sometimes result in severe complications
- staff could get sick, which would affect their ability to carry out their responsibilities

If your child is sick, please don't come to playgroup until he/she is well, and please call us to cancel any appointments you have with us.

If you have any questions, please don't hesitate to contact our office or any of our program managers.

Shuswap Children's Association
