DESCRIPTION OF PROGRAMS

Referrals welcome from parents, caregivers, and professionals.

Infant Development Program (IDP): *Free* for children 0-3 yrs. old with support needs, or at risk for developmental delays. Office and/or home visits, family support and developmental assessments.

Physiotherapy (PT): *Free* for children birth to school age with developmental and support needs. Office and/or home visits for support to improve development in movement, mobility, and other muscular difficulties.

Occupational Therapy (OT): *Free* for children birth to school age with support needs or learning difficulties with the activities of daily living. Office and/or home visit.

Supported Child Development (SCD): *Free* for children birth to school age with developmental, behaviour or support needs attending childcare programs. Provides support for children and child care staff.

Fetal Alcohol Spectrum Disorder (FASD) Key Worker Program: *Free* for youth birth to 18 yrs. old who may have FASD. Primarily provides support, advocacy, and education to families, caretakers, and children. Guides families through the FASD assessment process and provides resources and information to parents and caregivers.

Project Affinity: *Families use their Autism Funding or privately pay*

For youth 8 to 18 yrs. old with disabilities and/or a diagnosis of ASD (must be able to attend independently). These small peer groups encourage positive peer learning and the exploration of social skills. All activities are held in groups, after school, or in day camps during school breaks and through the summer. Youth need to be able to participate independently without 1-to-1 support.

The Nest Positive Behaviour Support Services: *Families use their Autism Funding or privately pay*

Social Skills, Groups (Children 4+ need to be able to participate independently without 1-to-1 support)

Children learn social and group skills.

Early Intervention, 1-to-1 with a BI (children under 6)

Children learn communication, play, daily living, and pre-academic skills.

Life Skills, 1-to-1 with a BI (children 6+)

For your child at home or in the community.

Parent Coaching and Support, 1-to-1 with a BCBA (parents with children 2 to 18)

Children's brains work differently, sometimes resulting in difficult behaviour. We can help change those behaviours, providing you with practical adjustments to make in the home and your approach.

Balance Program for Treatment of Emerging Problem Behaviour, 1-to-1 with a BCBA (children 2 to 7)

This is home based and parent implemented, to teach your child skills before problem behaviours become a routine.

Skills-Based Treatment for Severe Problem Behaviour, 1-to-1 with a BCBA or a BI (children 2 to 18)

Parent participation is required in the later stages of the program.
